Words of Encouragement from the Managing Trustee, JEM

"Education is the most powerful weapon which you can use to change the world."

-Nelson Mandela

Dear students,

This has been a difficult year for everyone- your parents, teachers and you , but your strength and ability to adapt to these uncertain times is commendable. Parents and teachers have worked together as a team to ensure that your learning process is not hampered.

In these trying times, we must count our blessings and be grateful for all that we have. The world will continue to look different, as we adapt to the new normal, but your strength, courage, resilience and compassion will get you through it. Hone your creative abilities and retain your curiosity to learn new things. Enjoy the learning processyour education will remain with you forever, and help you change the world for the better as you grow up into young adults.

Students, you have risen to the challenge of adapting to the new normal beautifully, continue to persevere and we will come out stronger together.

God Bless.

- Mrs. Ruchi Narendran

Words of Encouragement from the Administrator, JEM

“Believe in yourself and all that you are. Know that there is something inside you that is greater than any obstacle”.

- Christian D Larson

Dear Students you need to remember that there is a hidden greatness within you. You just need to start expanding your wings and you will discover that the sky is the limit. Students you are the reason for your parent's and teachers happiness. Always try to make them proud of your achievements.

In these trying times, the toughest time of remote learning is that we are not together . In spite of it we are continuously striving and navigating new territories and adapting latest technologies to remain connected.

Set your Goals High and always dream Big. Because you are only as Big as the Dreams you dare to live. Definitely your future is going to Rich , Rewarding and Kind . God Bless you all . Stay Safe !!

- Mr. A.F. Madon

From The Principal's Desk

"The world as we have created, it is a process of our thinking. It cannot be changed without changing our thinking."

-Albert Einstien

Change is the only constant. The entire world is now at the threshold of experiencing a change and is trying to adapt to the new normal. JSSP is also resonating with changes in its scholastic and co-scholastic arena but at the same time it is connected to its roots through the school Ethos, Values and Mission of creating a happy, safe and nurturing environment for students.

Stepping outside one's comfort zone is challenging. The same was experienced by the faculty members and students of JSSP as they entered into the Virtual Online mode of teaching - learning. But their urge to innovate and learn and the support from parents made us institutionalise the changed mode of teaching. Today, JSSP has augmented a transformation in its learning pedagogy. We are thankful to our school management for their Visionary guidance and for giving us the freedom to experiment and innovate in the changed scenario.

My Dear Students, Parents and Teachers, the journey has just begun! Let's embrace the changes and face the challenges with courage.

- Mrs. Mili Sinha

*"We must all drink the bitter as well as the sweet
And the test of courage is :What do you do
In the hour when reverses are coming to you
And who fights a fight though he struggles in vain
Shall have many a vict'ry to pay for his pain."*

- Edgar Albert Guest

INTRODUCTION

“The Art of Life lies in the constant Readjustment to our surroundings” says a popular adage. The academic year 2020-21 which begun amidst lockdown and pandemic could not keep the teachers of JSSP away from their students .Thus integrated and experiential learning with greater implementation of technology was the need of the hour and in the face of a crippling pandemic, online classes via Zoom for the students emerged as a major lifesaver. Teachers also keep connected to the students by WhatsApp groups and Parents alarm. In alignment with our school Vision, “To discover and achieve their potential”, a series of online activities were designed to keep the future environmental stewards of our planet engaged and unleash their talent. To feed the global curiosity of home-bound students, practical and fun filled activities were conducted.

High School Online Classes

With the unexpected COVID-19 pandemic, schools around the city have taken a step for closing their doors to help promote social distancing in the hope of slowing the spread of the virus. But the Senior and Senior Secondary School teachers of JSSP adapted to this change making learning fun, effective and engaging through online classes so that the continuity in learning is sustained.

Middle & High School Online Classes

Meticulous planning, frequent parent-teacher interface via Zoom, reliance on online resources and most importantly, the learner's enthusiastic involvement in implementing ideas helped the teachers cater to the students with different learning styles more easily.

A little butterfly

**There is a little butterfly that flies everywhere,
She flies high and high in the air**

**She has a cute face with two body parts,
She has six long legs with wings, shining like
the stars.**

**She takes nectar from my flowers,
And goes on flying hours to hours.**

**She makes my world little more colourful,
She is very bright and beautiful.**

**She loves to fly every day,
* She loves to make friends and to play.**

Corona virus

**We may be young or old,
But we must be bold,
Against the enemy untold.
We can't go to malls,
Nor can we go to waterfalls.
If you have to go out, think
twice,
Wear your mask, be wise.
After coming home sanitize,
And wash your hands thrice.
COVID-19 is the name,
It is playing a hide and seek
game.
By following the rules, we

LIFE'S IMPORTANT RULE

**If you think...
The life is long,
You are a bit wrong.**

**If you think...
The life is short,
Off course, you are right not.**

**In fact, you can make your life,
As you think it right.
You can make your life dull,
Or,make your life bright.**

**Everyone want their life to be long,
But for their long lives there is a trick.
You have to sing the melodious song,
Or your life will fall ill and sick.**

**It's a rule of life
Or in other words,
It's the way to strive.**

Trees Our Best Friend

It is correctly said that "When you plant a tree you plant a life ". Trees have inherited this earth longer than humans; however humans tend to forget this fact.

Trees are our best friend because they give us free living sources and demand nothing. Trees provide us with oxygen and make our life possible on earth. Trees consume carbon dioxide and provide us with food, shelter, home, money, medicine, etc.

We cannot imagine a world where there are no trees. They are the true friends of humanity. Trees make the mother earth look beautiful. We should plant more trees and protect our green friends.

दहशत बढ़कर बोल रही

हाथ मिलाना छोड़ दिया है,
खामोशी ही डोल रही।
खामोश पड़ी सड़कें हैं देखो,
दहशत बढ़कर बोल रही।।

देश बदल कर रख डाला है,
लटक रहा मौत का ताला है।
ये कैसी मजबूरी घोल रही,
दहशत बढ़कर बोल रही।

खिलखिलाती थी जो हर मौके पर,
आज जान की मोल नहीं।
कदम-कदम खतरा है देखो,
दहशत बढ़कर बोल रही।

चला रहे पत्थर हैं देखो,
अपने ही रखवालो पर,
फिर भी देखो असर ना होता,
देश के इन तलवारो पर।

सच्चाई थी कितनी सी देखो,
पर विकराल रूप लिये डोल रही।
मिलना-जुलना छोड़ दिया है,
दहशत बढ़कर बोल रही।

सोचा ना था इस दुनिया नें,
पर एक कीटाणु आज है देखो,
हकिकत बन कर डोल रही।
सब परमाणु निरस्त पड़ गए,
दहशत बढ़कर बोल रही।

वो रोज जो रोटी कुछ पैसो से?
रोज कमा कर खाते थे।
आँसू उनके फूट-फूट कर बोल रही,
दहशत बढ़कर बोल रही।।

Embracing the flair

There was once said- "Beginning of something is the end of another Beginning" .

But do we accept it with the spirit of the lightning,

Announcement was made one fine morning.

The situation across the world was alarming.

Thousands of lives met their ends due to the microbe,

Seemed like line of worry was etched across the globe.

The ever stopping life was locked down,

The nature mocked us with a frown.

They said - "Learning was an unstoppable river".

"Would it stop?" Learners asked with a face masking bicker.

Then the giver said -"The river shall stop never".

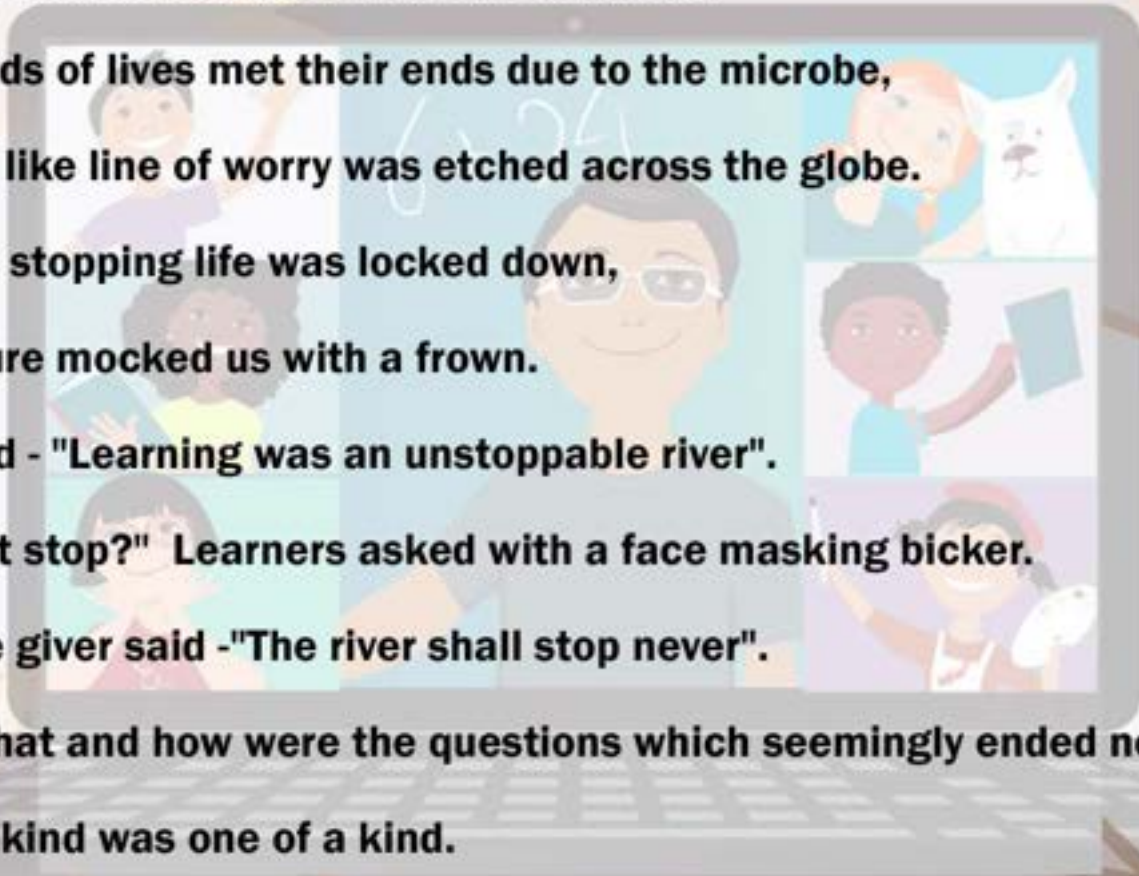

When what and how were the questions which seemingly ended never,

But mankind was one of a kind.

There came technology defying space and time where bodies can't reach,
it reached the mind.

The speed breakers appalled us all.

But winning them all they gave us the flair of pedagogy embraced by all.

शहीद का संदेश

प्रियतम किसी, किसी का
था आँखों का तारा
नन्ही सी उँगलियों का
था वही एक सहारा
प्यारे से भाई—बहन का
भाई था एक दुलारा
मैं जिंदगी की जंग
था पुलवामा में हारा
कह दो मेरे भाई से
कि सेना में वो जाए
और दुश्मनों के सीने पर
गोली वह चलाए
दोहराए न दुश्मन कभी
घटना ये दोबारा
मैं जिंदगी की जंग
था पुलवामा में हारा

जा कर कहो माँ से मेरी
हिम्मत न तुम खोना
पोते को लेके गोद में
बिल्कुल नहीं रोना
माँ बदला तेरे लाल का
भाई मेरे लेंगे
आतंकियों को चैन से
सोने नहीं देंगे
इन कायरों के आगे
तुम झुकना नहीं कभी
कर्तव्य पथ में हार कर
रुकना नहीं कभी
छीना है जिसने तुम से
प्यारा सा लाल तुम्हारा
मैं जिंदगी की जंग
था पुलवामा में हारा

Human life is all about actions and emotions, work and play and in this busy schedule of existence we often fail to identify what to wish for and what to sway. This poem I hope will compel you to think about your 'Wishes' before you wish

LONG VACATION

*The long vacation that we longed for, has come now
No longer the alarm clock busts the dream,
No longer we run to work, to stay in the stream.
Each day infuses a new passion now.*

The long vacation that we longed for, has come now

*No more we are affected by the scorching heat and interminable showers,
No more the honking and cacophony of the streets affect our ears.
Every morning is as serene as the mountains now.*

The long vacation that we longed for, has come now

*No longer meeting friends and visiting family are usual and normal,
No longer staying alone and isolated is stated as abnormal.
Each step is a game of survival now.*

The long vacation that we longed for, has come now

*No more fever, cough and headache are treated as the symptoms of trivial flus,
No more losing jobs and death of poor workers are uncommon news.
Every second a new case of probability arises now.*

The long vacation that we longed for, has come now

Lockdown -- An Opportunity to Explore

Getting bored due to lockdown?

Then see it from my perspective....

I know that nobody would have ever imagined that something as tiny as a Virus would be the cause of so many drastic changes both in our lives & our mother nature.

Scientists from all over the world have united to fight against the virus but, when will we reach the finishing line? or is there a finishing line at all? Are we slowly heading towards a mass extinction or this is the time when the earth hits the restart button? The questions are many but the only answer is 'HOPE'—hope that everything will be alright, hope that the economy will be on track once again and hope which will unite everyone. "Sometimes when things are falling apart they actually may fall into place"

We all agree that the lockdown has brought everything to a standstill but I am sure that most of the readers would agree that since the lockdown has started the nature has become so better and evergreen that we never expected. With no industries emitting smoke and almost negligible vehicular movement on roads had caused the pollution level gone down rapidly. Moreover perceiving the clear blue sky and the new visitors in our backyards — beautiful butterflies, birds and quarrelling squirrels from one corner to other, seems like a fairy tale. In this time, many things that we earlier considered very essential like restaurants, parlors & fitness centres were shut down. People realised that they can survive without them and started indulging in some recreational activities at home.

Kids are spending more time with their parents and grandparents and knowing more about each other. Teenagers who always used to cling on to their phones are now knowing more about their culture especially when the television shows are flooded with Indian epics Mahabharat and Ramayan. Children who would think about and wait for holidays are now awaiting to go back to school. Many families have transformed this lockdown situation into a family vacation where the domestic chores have been a fun family project, even the kids are doing their own beds, tidying up the things and also helping with the bigger chores. Families are cooking and eating meals together, exercising, watching movies, having great conversations and creating fabulous new memories. Thus we see some positive changes as a result of the lockdown.

Truly lockdown has taught us the importance of simple living and high thinking, that nothing is as motivating and as precious as an unadorned lifestyle. In fact the lockdown has given all of us, an opportunity to think with calm minds and take a long, hard look at our lives. This is indubitably an opportunity to reset our body clocks, rewire our brains, do away with the bad lifestyle habits and plan the positive transformation we need to make in ourselves and our lives when this crisis is eventually averted.

The pandemic is definitely an unfortunate thing to happen — we have lost lives, the economy slowed down and we still may be remembering our dear ones. However, we shouldn't forget the positive impact it had on us and such an impact might remain for a lifetime.

Online Assessments

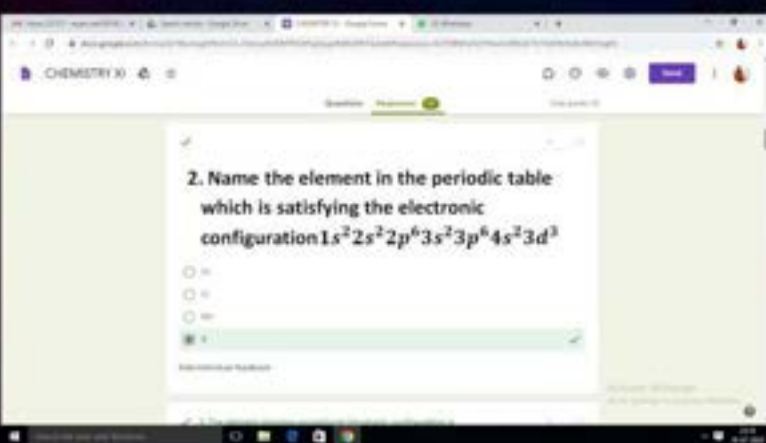

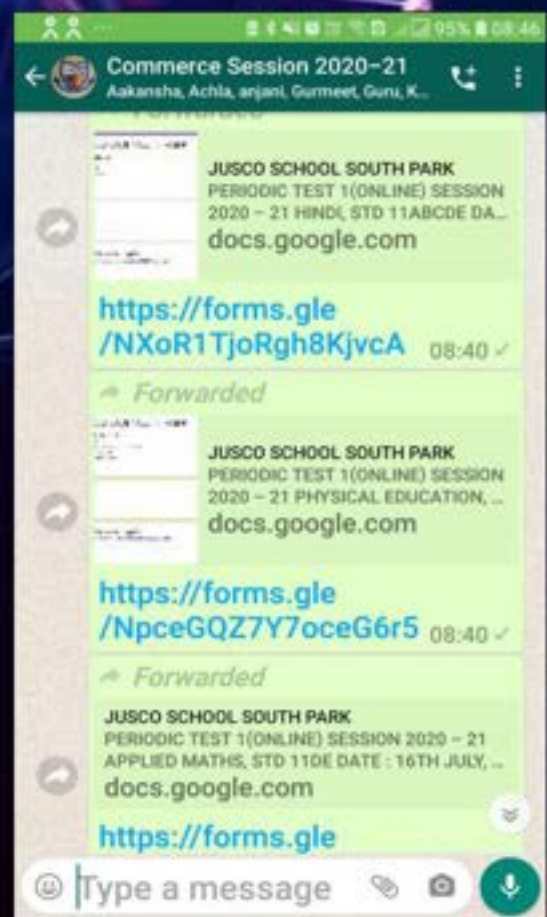

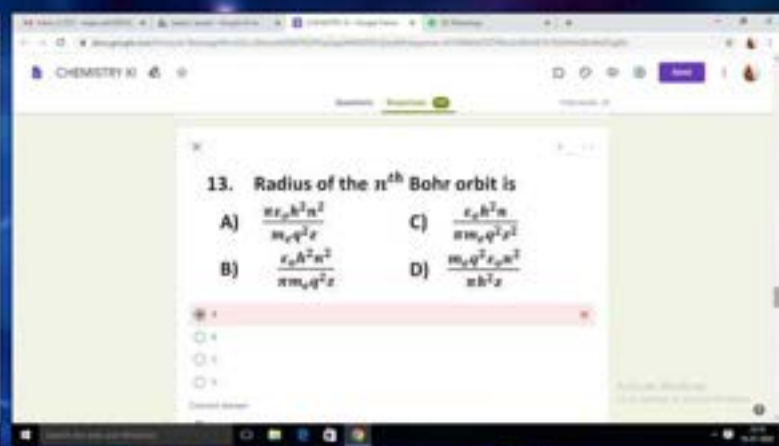

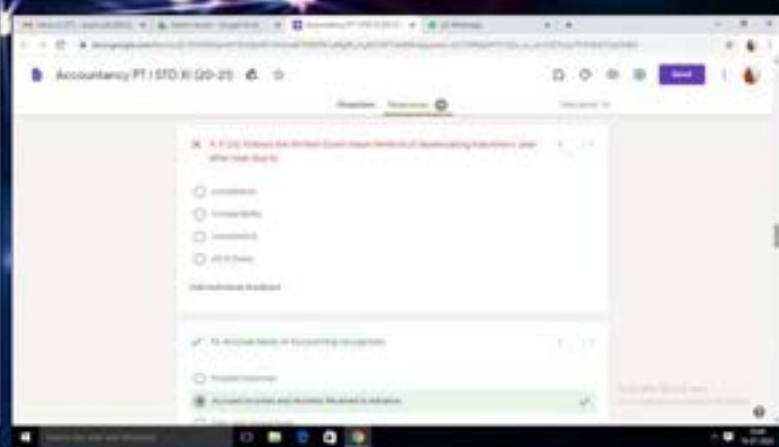

Online Assessments - Std XII

Students of Std XII attempted written pen paper examination from home for the first time. A two tier invigilation system consisting of Parents at home and teachers on screen helped in its smooth conduction . Students also showed their responsibility and accountability by following the rules and norms laid out for the online exam . A question wise feedback and follow up session was organized in each subject to communicate the gaps identified in the answer scripts.

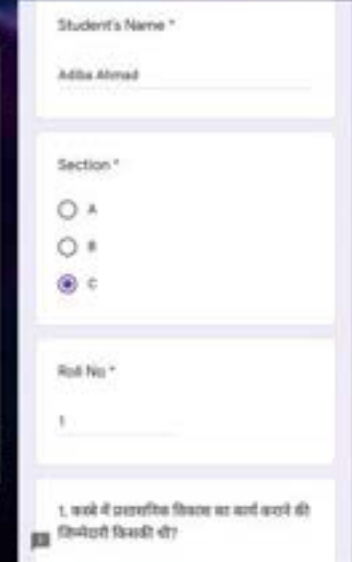

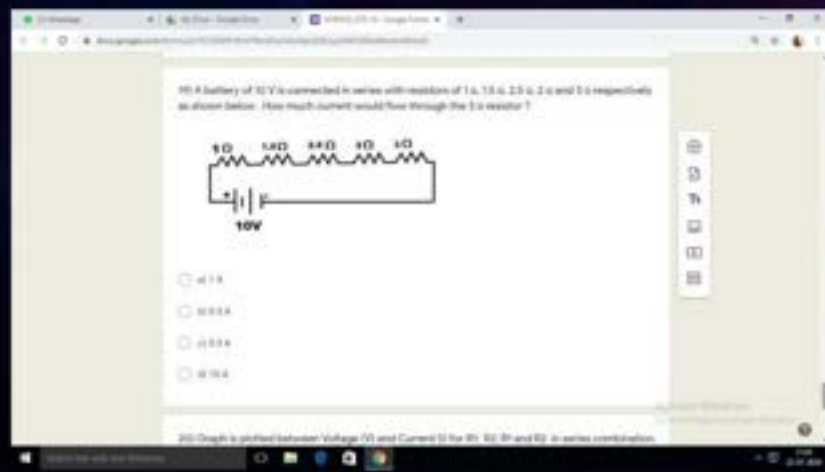

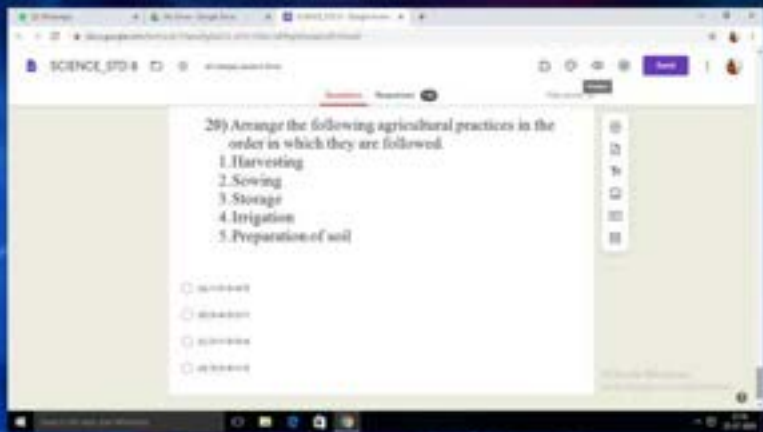

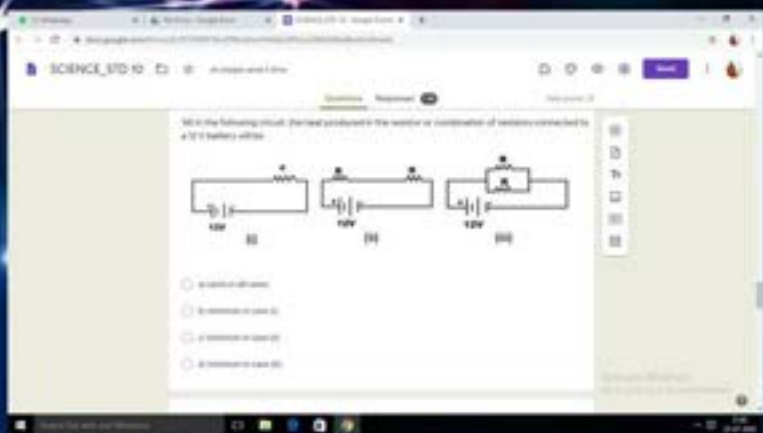

Online Assessments - Std XI

Short answers, reasoning, calculations and analysis of data the question paper of Std 11 PT1 included all these types of questions. The test was developed by the JSSP assessment team on Google platform.

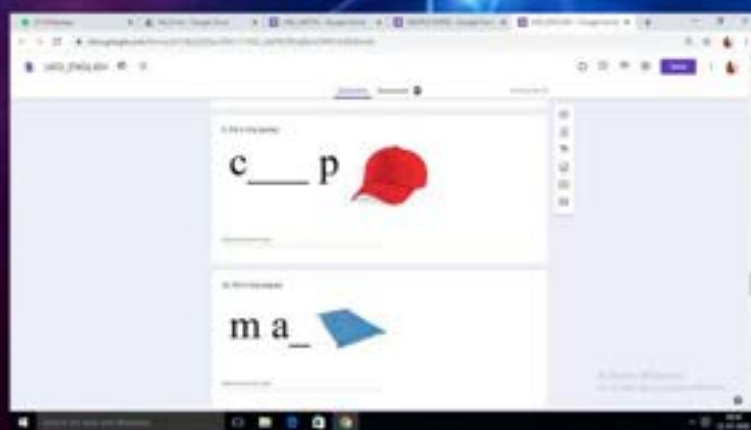

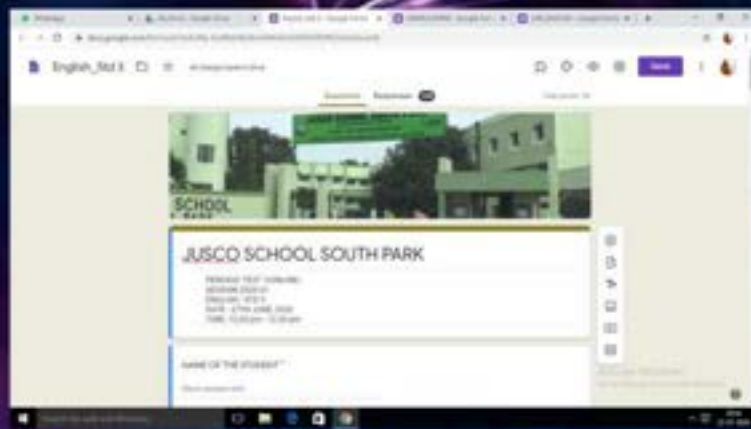

Online Assessments - High School

Students of High School also answered a short test developed on Google forms. The Consolidated scores of each class were communicated on the same day reducing the cycle time of test execution and correction to less than 12 hours.

Online Assessments - Primary Section

The online test for primary school and designed with a special visual appeal, keeping in mind their specific age group. The test also updated them about their scores in real time. Students were really happy to receive and immediate feedback and score after the test.

Online Assessments - Pre Primary

Kids of kindergarten enjoyed their informal interaction with the teacher during the oral tests conducted on-screen during zoom sessions.
