### **TAEKWONDO CHAMPIONSHIP**

Taekwondo team has made us proud at District and State level

## FROM THE PRINCIPAL'S DESK

Dear Students & Parents,

Education is the means to transmit light of life and spread the radiance of it in the ambience in which we live. JSSP, is committed to the noble task of spreading the light of education by enhancing skills of students and instilling values for developing them into sensitive and responsible citizens of future. At JSSP, as we continue the online classes to match the advancement of technology, a multitude of CCA opportunities are also offered to promote the holistic growth and development of cognitive skills required to match the needs of this fast-paced world. Values like respect, love, care, belongingness are being permeated in the online mechanism through theme-based activities.

During the earlier school days, when students used to attend the offline classes regularly, a lot of energy was channelized in form of organized games, physical activities and free play during the recess break. Emotional and social well-being was also addressed as students met and connected with their friends every day. This fun, physical activity and connect has, at the moment, disappeared from the daily routine of students. Hence, it is crucial for them to meet their friends online or through social media platforms. However, the time spent in these media platforms must be limited and monitored by the parents. Similarly, a regular exercise schedule can complement for the physical activities missed in online mechanism.

**“The will to win, the desire to succeed and the urge to reach your full potential, these are the keys that will unlock the door to personal excellence.”**

**-Confucius**

We celebrated the journey of Excellence and crowning of achievers in our Crystal Jubilee Prize Nite on 12th February, 2021. It was a wonderful experience for the entire team as for the first time, we had organised it on the virtual platform. I congratulate all prize winners of senior and junior school who have received awards for their outstanding performance and brought laurels to the school in academics, sports and other co-curricular activities.

Dear Students, with success comes greater opportunities and challenges! Have a strong desire to excel in your chosen field as “desire” is the starting point for any achievement.

**To be a star, you must shine in your own light.**

**Follow your own path and do not worry about the darkness,**

**For that is when the stars shine the brightest.**

## **Words of Encouragement from Mrs Vipin Sharma - Member SMC**

Hari Om

**Training the Mind is the Essence of Education. So Master your Mind and Master the World"-----Swami Chinmayananda.**

Dear Children,

It is deeply humbling for me to pen down my wishes for the Children of this wonderful organization that has come up in a short span of time and created a balance between academics and activities.

Children, always aim to do your best, rather than to be the best. Your passionate and sincere efforts towards reaching your goal will boost your enthusiasm. Your light of knowledge internal and external will tap your divinity and help you in becoming a true Human-being. Always remember "Divinity is in you",

An honest advice to Students: Explore options. Dare to dream beyond IIT's, beyond SRCC's. Your calling is the most important moment of your life-an epiphany, a moment of change, a moment of spark, a revolution. Look for it, listen to it and when you would have found it, revel in it, and bask in it and march forward with confidence.

But remember purity in thoughts and simplicity are the measuring rods of character. So always think positively, plan out deliberately and grow divinely, your nobility will reflect in your work and sure will lead to success.

Under the pragmatic guidance of the Vidyalaya Managing Committee and the Principal, the desire to scale loftier heights needs to be well applauded. Dedicated team of teachers deserves complements.

In this pandemic situation you have handled yourself well and faced this challenge boldly like true Arjuna and that is true "Education". But the positive aspect is that all of you have gone five years ahead in technology. Congratulations to your parents for their whole hearted support and positive approach. "This will pass away", said Gurudev. So let us pray ardently and hope for a bright future of all.

With Prem and Om

An  
E - Rendezvous  
with the  
Young  
Entrepreneur  
Stutee, Std XII D  
conducted by  
Amisha Pal  
Std XI A

**Rising against the odds, inspite of many health issues, Stutee has established Illuminare MUN as the Founder President**

## **Stutee in Conversation with Amisha Pal**

**1) It is said that discipline plays a very important role in achieving our goals. What was the role of discipline in your achievements?**

**STUTEE** - I think discipline plays a very important role in people's life. I have not been too disciplined rather I am a goal oriented person. I always focus on what I want to achieve and then I work towards it.

**2) What are your views on hard work and smart work? Is smart work all that we need for success or hard work also plays an equal role?**

**STUTEE** - I think Hard work and Smart work are not separate from each other. Smart work is Hard work with a strategy and once you are on track finding the right strategy for yourself then it is not difficult . I think smart work brings you better results. In a long run if you keep on putting raw efforts after a point you will feel burnt out and not have any energy to learn new things or revive yourself. So I think if you do it with a strategy you can do multiple things at a same time with efficiency.

**3) What were the contribution of your parents, teachers and friends in your achievements?**

**STUTEE** - My parents, teachers and friends have helped in shaping me what I am today. My parents and brother are my backbone. I offer gratitude to my teachers who taught me to be confident and always motivated me to bring out the best in me. My best friend has been my support system from the last four years.I really feel blessed to have such wonderful people in my life.

**4) You have spent 15 years as a JSSPian. How was your experience as**

**4) You have spent 15 years as a JSSPian. How was your experience as a student of JSSP?**

**STUTEE** - I have seen many ups and downs as a student but the friendly attitude of my teachers and the support of the administrative staff helped me to nurture and bloom into a confident individual. The last two years spent at JSSP makes me nostalgic. I have beautiful memories of my school.

**5) What is your favourite pastime or how do you entertain yourself?**

**STUTEE** - I love reading, painting and writing poetry in my leisure time. Presently i am studying fine arts and I am in second year . I love listening to music and recently I have found a new hobby . I love to listen to the broadcasts from spotify. As of now this is my favourite pastime.

**6) "It is during our darkest moments that we must focus to see the light." What were the darkest moments of your 17 years and how you had faced those?**

**STUTEE** - Life has not been a garden of roses for me. I have faced hostility of my peers which compelled me to go into isolation. My teachers pulled me through this and made me feel safe and protected. They made me realise that running away from a situation is not the answer but facing the adverse situation with confidence brings out the best in one self..

**7) How did you develop your problem solving capacity and confidence? What will be your suggestion to your juniors on developing confidence and solving problems?**

**STUTEE** - The attitude that you exhibit towards your problem speaks volumes about the solution. A positive approach and guidance from the seniors helps you to tackle the problem. Preparedness boosts your confidence. Failures are stepping stones to success, so failing does not mean the end of the world. FAIL means first attempt in learning. My suggestions for my juniors is that do not fear failures. Be consistent and honest in your efforts.

**8) What inspired you to have your own MUN organisation?**

**STUTEE** - I always wanted to do something of my own where people could discuss, talk and debate about certain issues and offer solutions to the topics which are considered as controversial in the world. MUN gave me this platform where unconventional topics could be debated and appropriate solutions were drawn out. My school Principal guided and motivated me in this endeavour.

**9) What were some of the challenges that you faced in your start up how did you tackle those?**

**STUTEE**- I think the biggest problem was my inexperience and I tackled it because my managing committee were far more experienced than me. We had people studying in higher universities. I got rid of inexperience through that and the other thing was that the other delegates who participated they were of such a standard that they did 100 MUN some did 30 MUN and had a very high level of experience so there was a kind of nervousness that I have to give them a good experience. There were some issues that happened during the MUN but then we got help from the delegation circuit and a strict action was taken against the same.

**10) What is your stand on stress and depression? How do you handle it? Is there any suggestion you want to give to your juniors as depression is a very common and a very major issue these days?**

**STUTEE** - My stand on depression is that there is a lot of taboo about depression and mental illness in the society. Nobody listens to them and hears their sides and in that case there is a huge gap and that person gets lonely and loneliness does no good to anyone because if you are secluded you cannot be helped. And I think this makes it difficult for people to go through this. In order to go through stress I think people can attend sessions and have therapy. I do yoga and meditation to handle stress. And mostly I stayed away from social media for a long time because I think this is very toxic and is not for everyone. I talk to my friends and use creativity as an outlet for my emotions which helped me a lot in handling stress.

# JSSPIANS SPEAK

# CRYPTOCURRENCY

Cryptocurrency is a digital or virtual currency that is secured by cryptography. It is of various types and many of them are decentralized networks based. The word crypto means secret and the currency means the medium to buy or purchase any goods and services. It is derived from the encryption techniques which are used to secure the network. A defining feature of cryptocurrencies is that they are generally not issued by any central authority, and also not used directly as money to purchase any thing. It is totally based upon the blockchain [the method for ensuring the integrity of transactional data, an essential component of many cryptocurrencies] .

Cryptocurrencies face criticism for a number of reasons, including their use for illegal activities, exchange rate volatility, and vulnerabilities of the infrastructure underlying them. However, they also have been praised for their portability, divisibility, inflation resistance, and transparency.

There are many types of cryptocurrency present now a days. The first blockchain based was bitcoin, which still remains most popular and most valuable. Today there are thousands of alternate cryptocurrencies with various functions and specifications. Some of these are clones while others are new currencies that were built from scratch. Bitcoin was launched in 2009 by a group pseudonym and there are 18.6 million bitcoins in circulation with a total market cap.

The advantage of cryptocurrencies include holding the promise of making it easier to transfer funds directly between two parties, without the need for a trusted third party like a bank or credit card company.

These transfers are instead secured by the use of public keys and private keys and different forms of incentive systems, like proof of work or proof of stake.

The disadvantages include its usage (especially bitcoin) a good choice for conducting illegal business online. The forensic analysis of the bitcoin blockchain has helped authorities arrest and prosecute criminals.

The market price for cryptocurrency are also on supply and demand. Cryptocurrency blockchains are highly secure, but other aspects of a cryptocurrency ecosystem. reduce its efficacy Bitcoin is by far the most popular cryptocurrency, followed by others such as etherum, litecoin, and cardano. Cryptocurrency allows for secure payments online which are denominated in terms of virtual "token".

## MAN IS THE ARCHITECT OF HIS OWN FATE

There is a no doubt about the fact that man makes his own fate, Fate does not make the man . Many people think that the course of man's life on earth is decided by fate but this is a wrong idea . A man's future depends on his own self . If he wastes his time in idleness , depends too much on others or loses hearts in the face of difficulties ,he will fail in life . If on the other hand , he makes proper use of time and opportunities , and follows his aim in life with patience and perseverance, success is sure to come to him. Even the ordinary abilities will bring him success if he makes good use of them . Shakespeare supports this view. One of the characters in "Julius Caesar" adresses Brutus by saying : "Fault lies not in our stars but in our ownelves that we are underlings." A man is the master of its own destiny. It is he who makes or unmakes it . On the other hand ,we often come across men endowed with abilities failing in life ,This is because they did not make proper use of their time and opportunities but wasted them in idleness . Their abilities thus got rusted and hence became useless. So, it is "we" who decide and write our own fate.

# SAVE THE GIRL CHILD

I Sleep, I eat Kick & I play  
I hear your sweet voice throughout the day  
Immense Joy & no Sorrow to hide  
Mom, how is the world outside?

I can sense your love for me  
I am eagerly waiting to come out and see  
What is there in this worldly ride?  
Mom how is the world outside?

I spend my time hearing you sing  
Songs of happiness, songs of spring  
I sensed your hurt last night when you cried  
Mom, how is the world outside?

Your hurt & vibration make me nervous  
Your cry & emotions make me anxious  
I whispered, I kicked but you never replied  
Mom, how is the world outside?

Shhh, they want a boy, not a girl  
Boy is treated as diamond & pearl  
I feel sorry, your life is short inside  
Sweetheart, the world is sick & unsafe outside.

बेटी बचाओ

# स्कूल की यादें

वो हसीन पल सिर्फ यादें बन गई हैं,  
जो हमारी आंखे नम कर देती हैं,  
आज भी वो रास्ते पलट कर देखूँ तो  
मेरे दोस्तों के मुस्कुराते हुए चेहरे नजर आते हैं।  
यादों की बारात लेकर विदा हो गए,  
उस स्कूल से जिसे हमने  
अपना घर मान लिया था ।  
परिवार सा दोस्त और,  
माता पिता समान दोस्त भी पाया था ।  
वो मस्ती वो खुशियां मीठी यादों का  
तस्वीर बन गया है ।  
आज वो स्कूल एक याद बन गया है ।

# THE DUSK

Sitting on a shore under a shade  
Observing the sun immersing in a lake  
The gleaming sand with the stretch of red streaks  
undoing the land.

The sun sinks within the sea, to make the breeze  
cool and carefree ...

Here we go the day meet its end ,  
We all saw a marvelous dusk no matter how much  
it subtends...

The cool breeze replaces the warm light ,  
Sweaty t-shirt, silent strokes of storm, ohh man  
what a delight,

Front and back ups and down

Tides are just not afraid of losing their crown  
Waves march in a way as if it's their father's land ..  
Liberty, beauty & space of eternity that's all nature  
taught me for now,

But sure, I'll be done with my lessons to change the  
perspective of brown ....

Priya Singh  
Std XI C

## **THE REASON**

**I ran and ran for miles long  
Thinking I could reach where I belong.  
Me adrift in the ocean of life  
Looking for a shore, or a reason to be alive.**

**I begin to value what I had  
Now that I've lost all I did.  
Hindsight makes me feel small  
Realizing it was not about me at all.**

**The ones I loved and have now lost  
Are the only ones that mattered the most.  
Reason is not to look for but to create  
For in all of us, Love is innate.**

**Sneha Sharma  
Std XI A**

# WAITING EYES OF A POOR MOTHER

There was a harsh and hardy old lady in a bank who was totally toothless and tremendously frail . She was a lonely gray – haired and wrinkled lady. She was being observed by many men in a bank , but nobody cared to ask her problem . She kept running from one counter to another counter in a sultry and scorching hot afternoon. At last, one staff tried to know the reason of her visit to the bank. Tears welled from deep inside and cursed down her wrinkle cheeks. She sobbed and said to the staff "Sahib, please see my bank account and check if my son had sent me 2000 rupees". But she got to know that her bank account was nil. She cried and went out of the bank. The next day she came again for the same reason but had to go back without a penny in her hand. She came daily and went back being sad. One day the bank manager saw her. He was a very generous and helpful person. He got to know the lady's problem and said to her "Maa, you have no money in your account till now". The lady cried and replied "Sahib my son used to send me ₹2000 every month, I don't need money but can you please tell me is my son fine?" The manager was extremely kind .He decided to transfer ₹2000 per month in the lady's account . He said to the lady "Maa I have called your son and got to know that they were in a financial crisis and so he was unable to send money but from the next one you will surely get it" . He lied, but at least the lady was so relaxed. She was delighted and cheerful. She smiled with her relaxed soul. The old wrinkled lady thanked the manager and replied "Sahib I already knew that my son was alright but my husband ,he never believed . He is continuously saying from last six months that any "Corona" named demon and had taken our son away from us. I knew he was lying. Please inform this to him. He is sitting outside". Listening this the manager was overwhelmed with grief .....

*"This is not just a story of one home.Many of our own country men are suffering from this situation....Not only India , the whole world is reeling under a very hard time. In this time, we all have to take care of ourselves .Many of us have already lost our loved ones because of this "Corona" epidemic".*

*This is such a epidemic in which we can't help other physically....but we can help the country by obeying the restrictions. As a responsible citizen, we should surely help our fellow citizens who are under going a difficult time. "I would also like to thank our doctors and all other frontline warriors who are a pillar of strength in these hard time....*

Supriya Bhattacharjee  
Std XI B

# रोटी की कथा

एक दिन चलते चलते , राह से जब मैं गुज़र रही थी सहसा ही मेरी नज़र ठिठकी मैंने जब देखा तो सामने मेरे पड़ी थी एक रोटी । वही रोटी जो गरीबों की भूख मिटाती है , अमीर इसे शौक से खाते हैं और मध्यम वर्गीय की होती है मज़बूरी । घर से थोड़ी सी ही थी दूरी , मैंने दौड़कर जाकर माँ से पूछा :- "माँ देखो वहां पड़ी है एक रोटी"। माँ ने कहा जाने दे बेटा , पर नाजाने क्यों मेरे मन में यह ख्याल आया कितनी मेहनत से मेरे पापा कमाते हैं , इस रोटी के लिए पैसे जुटाते हैं , पर क्या इस रोटी की यही कथा है , जो राह पर सुनाती अपनी व्यथा है । मेरा मन रो पड़ा , क्योंकि कुछ ही दिनों पहले मैंने देखा था भूख से बिलखते एक बच्चे को , वह दरवाज़े पर आकर कह रहा था माँ मुझे एक रोटी दे दो बहुत भूख लगी है , मैंने माँ से कहा माँ उसे एक रोटी दे दो , माँ ने रसोइ में से लाकर उस भूखे बच्चे को दी एक रोटी , उस रोटी को खाकर ना जाने उस बच्चे के मुँह पर एक खुशी छलक उठी । वह हंसता हुआ धीरे धीरे अपने घर की ओर जाने लगा । मैंने दूर तक उसे निहारती रही , तभी अचानक मुझे याद आ गयी वो रोटी जो सड़क किनारे पड़ी थी । आखिर क्या कसूर है उन किसानों का , जो अपना आराम छोड़कर निकल जाते हैं अनाज उपजाने को ? हाँ, तभी तो इसी के लिए इंसान मारते हैं इंसानों को , इसी रोटी के कारण तो कई लोग भूख से मर जाते हैं , पर ना जाने क्यों लोग इसे सड़क पर फेंक आते हैं ।

# HOLD UP TOGETHER

In a crowd was I struggling, when a mirror caught my gaze.

I looked so pale among all of 'em,

Feeling so drowned, I turned around.

Then my dream began to bound,

Which was alienated among millions of 'em.

May it be stupid, but no one could see,

I felt relieved as there was one and only me.

Reality hit me when I came back home,

Now I was strong and bold enough,

Posing like a maniac as I had always done.

Neither appa nor my amma could've helped,

It was my passion that kept me blessed.

I loved myself above all of them,

Serendipity for sure had blocked my head.

Independence and confidence were my only two dreams,

That I knew I'd for sure achieve.

Might it take plenty of years, But for sure it was there.

So, believe in yourself and hold up together,

Because God made you to fly like a feather.....

# Annual Day Celebration 2021

Jusco School South Park celebrated its 15th Annual Prize Nite in both physical and virtual modes in the 2nd week of February, 2021. The offline version of the event was celebrated at Kudy Mohanty Auditorium, Kadma on 12th Feb, 2021. The day carried a special significance as the school celebrated its Crystal Jubilee Annual Day marking the completion of its journey of 15 years. Mrs. Ruchi Narendran, Managing Trustee JEM Foundation was the esteemed Chief Guest for the ceremony. The program was also graced by administrator JEM Foundation Mr. A. F. Madon, Advisor VBCV Mrs. Vipin Sharma, Senior Manager JEM Foundation MR. Jiju Thomas and other dignitaries. Keeping in mind the year long pandemic, all COVID protocols were strictly followed during the programme. The ceremony witnessed the felicitation of Std XII school toppers & achievers of session 2019 - 2020.

The offline programme began with the auspicious lighting of the ceremonial lamp, which was followed by the School annual report presented by Mrs. Mili Sinha, Principal. She highlighted the schools achievements in both Scholastic and co-scholastic areas and also presented the memoir of the past 15 years of JSSP. The cultural programme was based on the theme of "Colours of India" which was beautifully portrayed by students in form of theme presentations on classical dances, colours of national flag, Yoga, Seasons of India. The school choir presented the melodious musical numbers on the theme of hope and memories.

# Annual Day Celebration 2021

# Annual Day Celebration 2021

# Felicitation of young achievers

The Chief Guest gave away the prizes to the Std XII achievers and congratulated them for their brilliant performance. She also congratulated the school for its Crystal Jubilee Annual Day. Addressing the students, she asked them to value relationships and show gratitude towards their parents, teachers and friends.

The programme concluded with the National Anthem.

The prize distribution for the other classes (Nursery – Std XI) including the Std X board exam toppers was conducted virtually on YouTube on 16th February .

# Annual Day Celebration 2021

# Annual Day Celebration 2021

The entire offline and online version presented on school's youtube channel had over 3350 views.

# **CO - SCHOLASTIC ACTIVITIES**

**WE CARE FOR ALL...  
JOY OF GIVING WEEK OBSERVED  
DURING CHRISTMAS CELEBRATION  
@JSSP**

# JOY OF GIVING ON CHRISTMAS @ JSSP

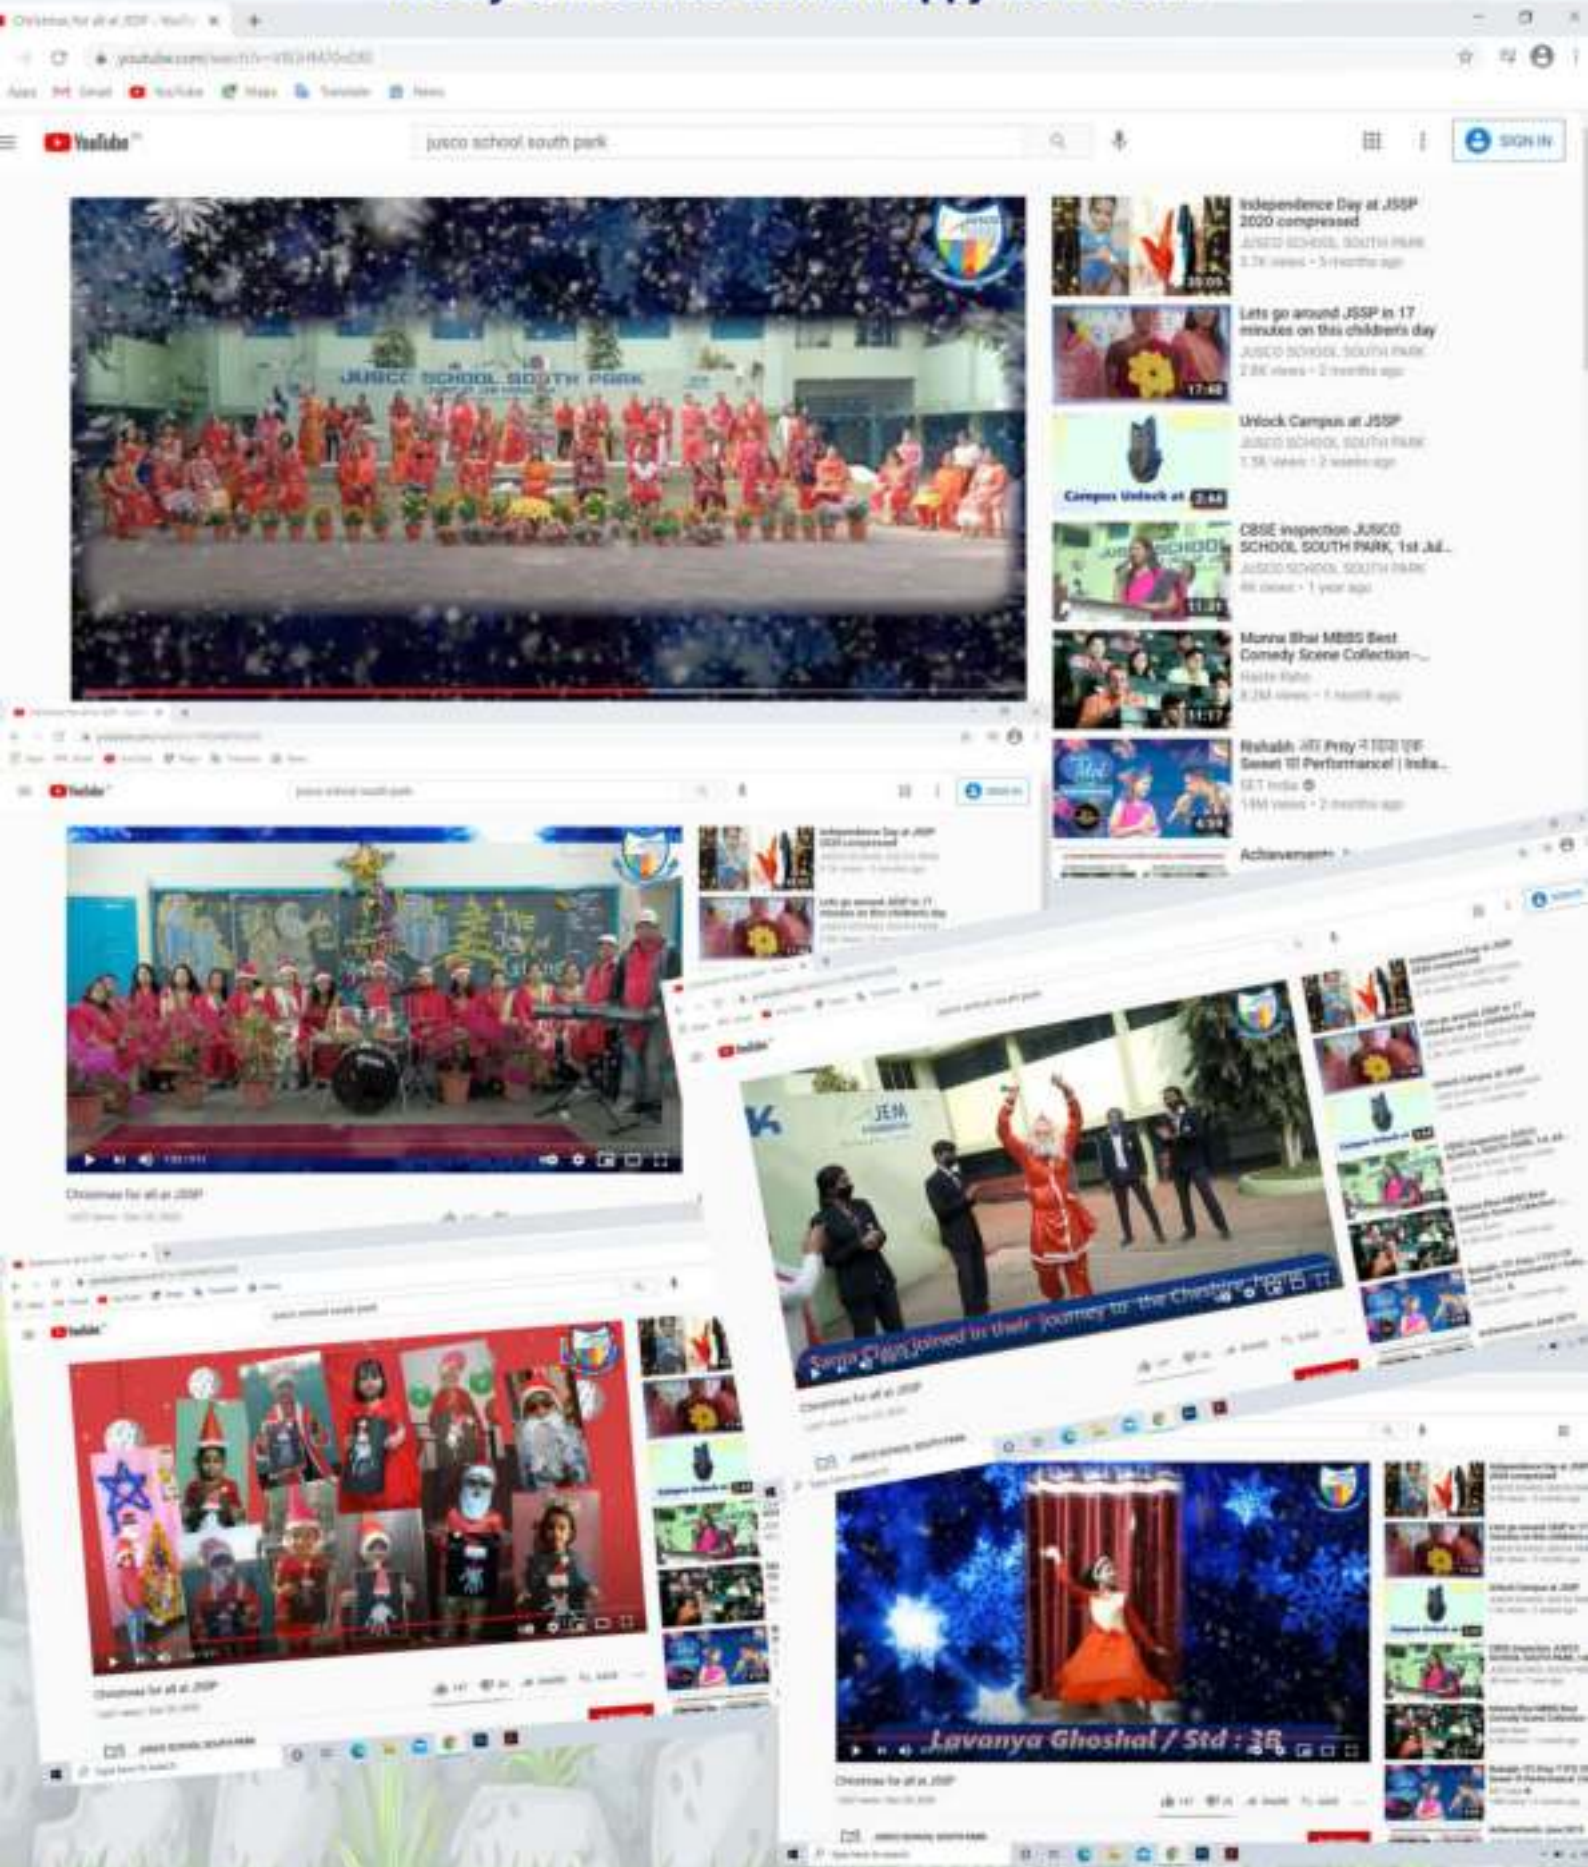

Keeping up with the tradition, JUSCO School South Park organized a week long "Joy of Giving" drive in association with "WE CARE CLUB" where parents and students donated grocery & daily consumables like food grains, cooking oil, biscuits, soap, cakes, detergents etc.

The Senior Secondary Student Volunteers from class XII and the We Care Club members packed these items and donated them to Cheshire Home in Sundernagar.

# JOY OF GIVING ON CHRISTMAS @ JSSP

A weaved video was uploaded on YouTube where the pre-primary teachers sung carols and the entire faculty wished the students and parents a Merry Christmas and a Happy New Year.

# **Republic Day Celebration in School**

**Flag hoisting ceremony following the protocols of the pandemic was held in the school campus. The video of the Flag hoisting ceremony & the cultural program was uploaded on YouTube.**

# Republic Day Celebration in School 2021

# **Saraswati Puja Celebration in School**

**Saraswati Puja was celebrated in the school premises to invoke the blessings of Goddess of Learning**

# ENERGIA

## THE VIRTUAL SPORTS FEST

The Virtual Sports Fest 2020 with the slogan ***“Don’t Limit your Challenge, Challenge your Limits”*** was organized for the students of JSSP. The activity coaches designed an array of fun filled activities for the students. Students enjoyed Skipping Fun, Jumping Jack challenge, Rhythm of Aerobics, Juggling of ball with hands or legs, Dribbling the ball with edge of a cricket bat and tennis racket, Skipping fun, Yogic postures and others. 45 students won medals in various events. On the basis of points scored, Aditi Chandra of Aakash House was declared as the Best Athlete with one Gold and one Silver Medal while Jal & Prithvi House were declared Champion Houses jointly for the Session 2020 - 21.

# **CBSE Trainings for Teachers**

## **CBSE Trainings for Teachers**

Teachers are a crucial and integral part of the education system. Teaching is an important process, but teacher is the fundamental element in this process and it is always the method which determines the output of the system. Teacher learning or training is a continuous process which promotes teacher's teaching skills, master novel knowledge, develop better or newer proficiency, which in turn assists in improving student's learning.

To enhance their efficacy in teaching learning process, the teachers of JSSP attended various capacity building programmes organized by CBSE. The trainings served to not only develop the skills of the teachers but also to keep them in pace with the various educational advancements and reforms. The trainings attended by the teachers included Understanding Child Psychology, Intellectual Disabilities – Nature & Strategies for Inclusion, Flipped Classrooms, Multiple Intelligence, NEP 2020 & its Assessment Reforms, Time Management in Classrooms, Creative & Critical Thinking in Mathematics, Effective Strategies Towards Using Humour in a Language Classroom, Activity Based Techniques for Primary Classes, Post COVID Schooling, Adolescence in Present Scenario (Social & Emotional Characteristics), Stress Management Techniques, Teaching & Learning in 21st Century - Issues & Prospects etc. A total of 294 man-hours of trainings were attended by various teachers in this quarter.
