IN THIS ISSUE :

SCHOOL REOPENS FOR ALL

Phase wise reopening from Nursery to Std XII

AN E - RENDEZVOUS WITH THE YOUNG IITIAN AMIT KUMAR, STD XII A

We are proud of you, Amit

BIDDING FAREWELL TO 2021 BATCH

All the best...

IPTSE OLYMPIAD

6 Students amongst top 20 National Rank holders

Words of Encouragement from the Managing Trustee, JEM Foundation

*"However difficult Life may seem, there is always something you can do and succeed at."
Stephen Hawking*

Dear Students,

I know that we all had a tough time during the pandemic but the reopening of schools gives us a ray of hope that everything is normalizing finally. Face to face interaction with your friends is creating a strong bond of friendship.

But the way you have faced the challenges of the pandemic is remarkable. The path of life is full of challenges but if you are dedicated, determined and optimistic nothing can stop you from achieving your goals and fulfilling your dreams in life.

Dream is something which helps you to stay focused and energized. Live your life and enjoy your dreams. Even if you never achieve them, the journey towards them should be amazing!

So ignite your passion, set your goals and strive to carve a niche for yourself!

All the best !

*Mrs. Ruchi Narendran
Managing Trustee, JEM Foundation*

From the Principal's Desk

Dear Parents, Students and Teachers

After a long silence of 15 months, it gives an awesome feeling to see the shining eyes and gleaming faces of JSSPIANS back in school campus - classrooms and labs buzzing with the noise of student and teacher interaction, enthusiastic athletes in the playground and creative artists and stage performers involved in a multitude of activities.

Although the learning cycle continued through online mode during the pandemic, there has been a great pressure on the educators as well as the learners. In fact, after returning back to school, students need to acclimatize themselves to the school environment, culture and discipline. Educators and Parents should team up together to help students to rejuvenate themselves in this learning process.

At this outset, I would like to re-emphasise upon the importance of 3 P's as an area of improvement for the students- Punctuality, Perseverance and Politeness.

Punctuality provides us with tremendous opportunities and can bring in great outcomes. Everyone has 24 hours in a day. Dear Students, plan out your day to day activities and prioritize your goals. Late coming to school or late submissions create an undue pressure on you.

Punctuality evades this pressure and tension. It increases our productivity and confidence. Next is Perseverance, which is an essential precondition to success. Knowledge and talent alone cannot make you achieve the goals. A strong will power and the ability to make continued efforts, despite failures, is necessary to attain success. You must set a goal and once set, leave no stone unturned to achieve it. Politeness and Smile make the world go round.

Dear Students, please be polite to everyone- your teachers, friends, seniors and juniors. The past 15 months have shown us how loneliness demotivates us. It has made us realize the joy of spending time together with our peers and teachers. So always stay happy, be nice to everyone, always wear a smile, not because your life is full of reasons to smile but because your smile itself is a reason for the others to smile.....

*If you think you've missed the mark,
Use a Smile;
If your life seems in the dark
Why, just Smile.
Don't give up in any fight;
There's a coming day that's bright,
There's a dawn beyond the night,
If you Smile!!!*

Best wishes for having a happy and fruitful academic year ahead..

Mili Sinha
Principal

TOPPER'S TALK

**An
E-Rendezvous
with
AMIT KUMAR
Std XII A
conducted by
MUKUND GUPTA
Std XI A**

Mukund Gupta in Conversation with Amit Kumar

1) When did you decide to take PCM and do engineering? What motivated you for it?

→ When I was a child, I used to break the toys to see the parts and then reassemble it. I always wondered how does the calculator work and then found out that there is a PCB board inside it. I researched about its functioning. I was always curious about the functioning of gadgets. This motivated me to take Science so that I could do research in Electronics.

2) When did you start your preparation?

→ When I was in class IX, my elder brother told me few concepts of Std XI and XII. I started learning few concepts from 9 but I mainly started my preparation from class XI.

3) It is said that during the preparation, Time Management is an important factor. Most aspirants fail in managing time between Std XII Board Exam and JEE. What was your strategy on that?

→ Students consider boards and JEE as two different things but they should understand that if they are preparing for JEE then boards will get covered automatically, they should not consider these exams as two different paths.

4) What were your other options apart from JEE i.e. PLAN B?

→ I did not keep any Plan B because if I had a plan B then I would not have been able to give my best for JEE. My dedication would have faltered because in the back of my mind I would have know that there is an other option.

5) Have you ever felt like you won't be able to crack any entrance examination and

thought of quitting the preparation? How did you managed to overcome that situation?

→ Yes I felt this many times like after giving mock test when I used to get less marks, I often thought I will not be able to make it but self motivation is the key to come out of that remorse. If you have a reason for clearing JEE, like I had the reason to do research on electronics, then you can motivate yourself and again begin your preparation with more effort.

6) What all support did you get from JSSP in your preparation?

→ I got to learn basic and small concepts in school which are very important for concept building and were not clear to me earlier, teachers explained and illustrated everything in school which made understanding much more easier.

7) Which subject did you find a little difficult as compared to the other two and what all did you do to make it strong?

→ I found Chemistry a little tough because there are many things to memorise in Chemistry in Inorganic and Organic. I gave extra effort and did the major portion of Chemistry in the last two months so that I don't forget them.

8) The biggest distraction for most of the students now is Smartphone. They are not able to keep themselves away from social media, YouTube, etc. for much time. On the other hand, Smartphone has been a great support for many students in their preparation. How did you manage to keep yourself away from the distractions and what are your suggestions for the aspirants in this matter?

Mukund Gupta in Conversation with Amit Kumar

→ I also used social media whenever I was exhausted but I did not waste time in social media. I used it to relax myself. I also got a lot of help from Social Media, I learnt many concepts from YouTube. It is important for students to realise that they should use social media in limit till it is helping them and not waste their time unnecessarily.

9) Did you make short notes of each chapter for last minute revision? According to you, what is the importance of making short notes?

→ I made short notes only for Chemistry because there are many small points which we need to remember and there are some short chapters in chemistry like Biomolecules, Chemistry in Everyday Life which have less content but questions of equal weightage come directly from those

chapters, so short notes are really helpful for the last minute revision that is just before the exam day.

10) What are your further plans after B.Tech? Do you think Management is a good option for Self and Career Development after B.Tech?

→ I personally will not pursue management after B.Tech but management can also be a good option, I want to pursue PhD in Electronics.

11) What are your suggestions for the future aspirants?

→ I will just say that keep trying your best and crack it. Main thing is consistency, start your preparation from Day 1 and do a little everyday. Doing a lot of hard work just before the exams will not help, so start from Day 1.

JSSPIANS SPEAK

मेरा प्यारा स्कूल

ओ मेरे प्यारे स्कूल,
क्या गए हो तुम हम सबको भूल?
जब अध्यापिका जी जाती थी कक्षा से बाहर,
हम सब मचाते थे शोर का पहाड़,
कभी गूँजती थी कक्षा शोर पर,
कभी भागते थे हम कॉरिडोर पर,
कभी पहुँचते थे कक्षा देर से,
कभी उछलते थे बगीचे के पेड़ से,
कभी बातें करते थे मित्रों के साथ,
कभी मिलाते थे एक-दूसरे से हाथ।

ओ मेरे प्यारे स्कूल,
मत जाना हम सबको भूल,
मिलेंगे हम फिर से एक साथ,
खेलेंगे, कूदेंगे और करेंगे बात।

सामाजिक दूरी एक वरदान

कैसी आई यह कोरोना बीमारी,

सामाजिक दूरी हुई लाचारी ।

सोशल नेटवर्किंग पर हर काम है होता,

या हो पढ़ाई या खरीदारी।

जी हां, यह कहना गलत नहीं होगा कि सामाजिक दूरी का पालन करना जहां बेहद आवश्यक है वही यह एक वरदान भी साबित हुआ है सामाजिक दूरी के पालन करने के कारण ही लोग आज नेटवर्किंग मार्केट की ओर बढ़ते जा रहे हैं। जहां पर पैसों का लेन-देन करना, बाजार से कुछ वस्तुएं मंगाना, देश- विदेशों में भ्रमण करने के लिए टिकट बुकिंग कराना आसान हो गया पल भर में चुटकी बजाते हैं सारे कार्य हो जाते हैं।

पढ़ाई से संबंधित कोई खोज करनी हो तो आसानी से सारे सवालों के समाधान मिल जाते हैं। आज कई चैनलों पर विभिन्न विषयों के अलग-अलग ढंग से अलग-अलग शिक्षकों द्वारा कई गतिविधियां प्रस्तुत की जा रही है, जो बच्चों को मनोरंजन के साथ-साथ शिक्षा के क्षेत्र में भी काफी लाभ पहुंचा रहे हैं। यह वरदान नहीं तो क्या है ?

जो बच्चों को आजकल किताबी ज्ञान से ज्यादा व्यवहारिक ज्ञान हासिल हो रहा है। व्यवसाय से लेकर शिक्षा के क्षेत्र में कई प्रकार के ऐसे नेटवर्किंग चैनल दिखाए जाते हैं, जिस पर लोग काफी सक्रिय होते नजर आ रहे हैं। बच्चों की पढ़ाई को लेकर रोज नए-नए खोज किए जा रहे हैं यह बच्चों और शिक्षकों के लिए एक बहुत बड़ी उपलब्धि है। आम जनता भी इससे काफी लाभान्वित हो रहे हैं, क्योंकि उन्हें अब कहीं दूर सफर करने के लिए ज्यादा पैसे लेकर जाने की आवश्यकता नहीं होती वह जब चाहे जहां चाहे किसी वस्तु को खरीद सकते हैं या अपने मनपसंद होटल में रह सकते हैं इसके लिए उन्हें सुरक्षित तौर पर पैसों का भुगतान करने के लिए कई प्रकार के नेटवर्किंग क्षेत्र बनाए गए हैं। ऐसे ही माई गवर्नमेंट ऐप पर सरकार द्वारा कई प्रतियोगिताएं आयोजित की जाती है जिसमें भाग लेकर बच्चे अपनी बौद्धिक क्षमता को बढ़ा सकते हैं ;इसके लिए उन्हें ई -सर्टिफिकेट भी दिया जाता है। साथ ही बच्चों को अब मोटी - मोटी किताबें लेकर बस्ते में जाना नहीं पड़ेगा वे लोग e-book द्वारा अपनी पढ़ाई जारी रख सकते हैं। यह सब सोशल नेटवर्किंग से ही तो संभव हो पाया है।

THE CONTRIBUTION OF TECHNOLOGY IN EDUCATION

Technology has played a vital role in the field of education as it has created a digital platform for the students so that they can acquire more knowledge. Due to this update in the education system further school and college students are benefitted in a relevant manner.

Talking about it's contribution most of the schools and colleges have specially designed computer labs with very high tech facilities so that children can acquire new skills. Various computer language problems are also being taught to the children so that they get expertise in their field as it will help them in placement and job interviews.

The major contribution of technology is the implementation of projectors in every classroom so that students can understand the subjects easily and also all the study material is made available to the students through online sources too and to study and have their classes in any situation.

HEALTH IS WEALTH

What is health? Most of us hold a misconception about being healthy. No, waking up at 6 am and consuming a huge amount of nutritious food items does not make you healthy. According to WHO (World Health Organization) health is the general state of a person's physical, mental and social wellbeing. So even if a person eats healthy, exercises regularly but has a lot of issues in his/her neighbourhood or has anxiety issues, then all those attempts to being healthy is useless. Thus, one can be called healthy when he is free from any disease, anxiety and social and psychological tensions. Sometimes we become so busy in emphasizing about money and wealth. We forget that health is the biggest treasure of life. What is the meaning of all the wealth and possessions when you cannot even enjoy it because of health and physical problems? Yes, in that case all those wealth and possessions will look worthless. So the best way to live and enjoy your life is by living a healthy lifestyle. Being a teenager ourselves it is very important to stay healthy for us and here's how we can do so - Consuming a balanced diet, exercising regularly, getting 7 – 8 hours of complete sleep and maintaining physical hygiene keeps us fit. If you ever feel mentally exhausted or burnt out then take a break. Don't be shy or nervous to ask for help from an elderly person, you can share your feelings with your teacher, parents or some experienced elder and remember that you're not alone in this. There are always people who can help you get out of the pit of misery you're in. Try finding something that peeks your interest, create new hobbies and always keep smiling. To stay socially healthy, we should make some good friends and get rid of the toxic people from our lives. Try socializing once in a while, I know it sounds like a disaster for introverts but it is worth a try. Therefore, health is the real wealth and we can achieve greatest heights in our life only if we are healthy.

MADE FOR EACH OTHER

One thing,
I would like to let you know
about my father
And his morning walk with his milk cane

Early in the morning
dangling in one of his hands
he goes out for a walk
to fetch milk from the milk land

I don't know
where he goes for that
how many roads and houses
does he pass to reach their exact

Bit cold or rain
It never makes him surcease
whether it's dark or foggy
he marches forward with more ease

From his very childhood
he has honestly dedicated
himself to this task
sacrificing his sweet morning sleep

So it seems
whatever my father suffered
the cane suffered too
such a relation can't be imagined
by me and you

“ Try Try Until ”

Try try until you succeed

But don't cry over the split milk

Even a handcuffed are given a chance to live.

Can't we give ourself a chance to gain self esteem?

The esteem lost due to failure in our deeds.

There is darkness just before the sunrise.

What if your next try,

Leads to glory and pride?

Einstein couldn't succeed in theory of relativity in one try ,

Nor Newton in his love for gravity .

Neither we Indians got independence in one strike .

Nor Napoleon got his fame in one night .

Neither Malala gave up educating girls .

Nor Gandhi gave up satyagraha fearing from failure .

We should learn from the little spider who says there is no

harm in one more try .

Coz failure is the basis of success in one's life .

I MISS MY SCHOOL

I miss my school
It's a big knowledge pool.
Here, I meet my teachers and friends,
that is so cool
we play here and follow every rule
I miss my school I miss my school
It's a big knowledge pool.

At my school we dance and we play
We sing and enjoy all the day
We draw we run
and have so much fun
I miss my school, I miss my school
It's really a big knowledge pool

Even my birthday has gone
but I miss my school celebration and birthday assembly song
I'm missing my teachers and friends
go corona go
so I go to school soon
I miss my school I miss my school
Because it is a big knowledge pool

Std 1C

Who're They ?

They are the great warriors,
Who're standing as our frontiers!
They are patriots,
Who're like ramparts, protecting the compatriots!
They are the brave Indian soldiers,
For enemies,
Who're group of boulders!

Salute to their righteousness,
Salute to their braveness!
Salute to the great men,
Who're guarding my country's border with fearlessness.

When they're born,
On that day,
Everywhere it's bright & gay.
They might not be of soldier's field,
But they become our country's shield.
They have purity in their hearts,
They're our country's security guards.

While we celebrate Diwali in our courtyards,
These bravehearts combats and become our escort guards.

I salute all the three tiers,
Of my Indian Army,
To armed force, to airforce
And to the Navy.
Because of their bravery,
We've got rid of slavery.

महिलाओं का स्वरूप

अलग अलग लकड़ियों की तरह ही,

परिवार के सदस्य गण होते है।

महिला रूपी रस्सी से बंधे जो,

आपस में तब मजबूत होते हैं।

ये जानकर भी लोग महिलाओं का उपहास करते हैं,
की जहां नारियां पूजी जाती हैं वहां स्वयं भगवान वास करते हैं।

जहां एक पुरुष शिक्षा पाकर स्वयं में ही सिमट जाता है ,

महिलाएं शिक्षित होकर पूरे समाज को बदल देती हैं।

तिनका तिनका सहेजकर अपना आशियां बना लेती हैं,

मोल भाव करके भी परिवार निर्वहन करती हैं।

आए जो बात मर्यादाओं की ,

फिर काल से भी ना डरती हैं।

पति और बच्चों पर कोई आंच न आने देती हैं।

घर को बनाती स्वर्ग कभी उफ़ तलक न करती हैं,

मिल जाए थोड़ा सम्मान बस उसी में खुश हो लेती हैं।

कंधे से मिलाकर कंधा पुरूषों के साथ चलती हैं,

घर लौट कर पुनः गृहणी भी कहलाती हैं।

नही रखती कोई अपेक्षा घर और बाहर किसी से ,

हर जिम्मेदारियां निभाकर दोहरा जीवन वे जीती हैं।

श्रृष्टि की सृजनकर्ता संपूर्ण प्रकृति हैं वो,

बस प्यार के लिए जीती हैं और सम्मान के लिए मरती हैं।

नौ माह पाल गर्भ में फिर शिशु को जन्म जब देती हैं,

सारा सौंदर्य खोकर भी सहजता से वो मुस्कुराती हैं।

जी हां ,वे महिलाएं ही है जो हर मोड़ पर कोसी जाती हैं,

अपनी होठों की मुस्कान देकर जो औरों के दुख ले लेती हैं।

SPORTS DAY 2022

A School Year without the Celebration of Sports Day is a year without fun!

In view of the long closure and intermittently changing offline and online mode of classes during 2021-22 session, the school celebrated the Sports Day in a hybrid mode:

- 1) Sports Day in Offline Mode- - Std IX - Std XII
 - 2) Energia Virtual Sports Fest- Std I - Std VIII
 - 3) Energia Junior Fest- Nursery and LKG
- 

SPORTS DAY 2022

Sports Day for the students of Std IX -XII was held in the sprawling lush green ground of JSSP with a lot of passion and sportsmanship . Mr A F Madon , Administrator JEM Foundation graced the occasion as the Chief Guest .

SPORTS DAY 2022

The enthusiastic students of the Senior Secondary school participated in Mini Marathon and several other track and field events.

SPORTS DAY 2022

Students participated in slow cycling race and sent the message that cycling leads to fewer the emissions , greener the environment.

SPORTS DAY 2022

The faculty of JSSP also enjoyed in the field by participating in slow bike riding & balloon race.

SPORTS DAY 2022

The students who were declared winners in the various events were awarded with medals by the Chief Guest Mr A F Madon & the school Principal Mrs Mili Sinha. Aakash House lifted the champions trophy

The faculty members of JSSP who were declared winners in the various events were awarded with medals by the school Principal Mrs Mili Sinha.
